

I International Congress on VASCULAR ACCESS

Coimbra | Portugal
Nursing School of Coimbra
September 26 - 27, 2019

Support

Escola Superior de
Enfermagem de Coimbra

UNIDADE DE INVESTIGAÇÃO
EM CIÊNCIAS DA SAÚDE

PRECONGRESS COURSES PROGRAM

26th September 2019

January 15 | 08:30AM
Nursing School of Coimbra

USING ULTRASONOGRAPHY FOR CICC PLACEMENT

Coordination: Rita Barroca, M.D.

THEORETICAL SESSION

Introduction

(Rodrigo Oom, M.D.)

Ultrasonography:: Introduction/Utility

(Rodrigo Oom, M.D.)

Basic Principles of Ultrasonography

(Francisco Cabral, M.D.)

Anatomy and Ultrasonographic Technique

(Sara Carvalho, M.D.)

Ultrasonography Placement: Outcomes

(Francisco Carvalho, M.D.)

Discussion and Common Difficulties

(Rodrigo Oom, M.D.)

Coffee-Break

PRACTICAL SESSION

Introduction

Practice in a realistic human model and animal models.

Each student will have the opportunity to practice ultrasonography visualization of the main central veins and perform ecoguided venopuncture.

PICC PLACEMENT

Coordination: Rita Barroca, M.D.

THEORETICAL SESSION

Presentation

(Rita Barroca, M.D.)

Patient's Evaluation

**Access Classification and Choice. Types of PICC
(material/lumens/extremity/PICC port) Indications and
contraindications**

(Renata Bastos, R.N.)

Essential Technological Developments

Microintroducer Ultrasonography. Extremity location

(Renata Bastos, R.N.)

Anatomy

(Filomena Godinho, R.N.)

Vein selection.

RaPeVA

ZIM

(Filomena Godinho, R.N.)

Maintenance

(Ricardo Cerqueira, R.N.)

Complications

(Ricardo Cerqueira, R.N.)

Insertion Technique

(Renata Bastos, R.N.)

Coffee-Break

PRACTICAL SESSION

Practice in realistic human model (for RaPeVA and Ultrasonography) and animal models (for catheter insertion); plastic models (for maintenance).

Each student will have the opportunity to practice ultrasonography visualization of the main central and peripheric veins, perform ecoguided venopuncture and catheter's maintenance.
